You ain't gotta ask cause imma hold you down like four flats  
You ain't you ain't gotta ask cause imma hold you down like

Oh I never thought things would change  
Cause we been together every since the first grade  
And I remember when you used to wear your braids  
You told me you was digging your fresh new jays  
When we was younger we always used to say  
We gone end up splitting up one day  
And now its here today gone be the day  
They gone come and take my away

Everybody in the streets know you can ask the people  
That chuu my girl  
I can take you around the hood lets get this understood that ch  
uu my girl  
You my girl [8x]

Remember sneaking on the phone  
Or sneaking out your window when your momma got home  
No you remember when I tried to led you on  
You stopped me in my tracks and you said boy we ain't grown  
Girl that had to be the day  
I knew you was the one and I forever stay  
But today gone be the day they gone come take my shawty away

From the hood to the 'burbs around the world I know they heard  
[2x]  
That chuu my girl [4x]  
Everybody in the hood knows that you my girl
