New Wave

Jacquees

I'm thinkin of ways
Been thinkin for days
Can we do something different
Girl you see the difference between me and them lames
Girl we ain't the same
Did he waste your time, are we wasting time
Or are we doing us
I pull the camera out baby when you turning up
I get so weak in my knees I can hardly speak
I got you gripping the sheets spread your love all over me
Can I control your mind girl there will be no time for thinkin
Take a shot girl keep on drinking
Girl there will be no time for talking
Girl you know we both got options
And now you get these bitches watching talkin bout I'm wishy wa shy
You put it on me, got me watch you dripping on you, even trippi n on you
Think you are something different don't you
I'm gon put it on you
And when he call you don't call back
Two deep strokes and I'll fall back
We got time to do all that
Can we start a wave
Girl we need a new wave
