

## Outta Line

Jacquees

I'm stepping outta line  
I'm stepping outta line

Boy you gotta slow down  
You move away too fast  
Looks like I got more than you can handle  
There's another man beside you  
And he's good to me  
But not good as you  
You show me all the freaky things that he doesn't do  
Oh I said, this shit has to stop  
Know when he's gone, you can hit my spot  
You got me so confused  
'Cause a lot of men just come and go, we're stepping out that friend zone, tonight  
Don't get me in trouble  
Actin' like a couple

I'm stepping outta line  
I'm stepping outta line

Don't wanna slow down  
Wanna put my hands on your body parts  
Tonight you're having it your way  
Don't you ask for his permission  
Did I mention?  
I'm in love with switching positions  
Wanna fuck you in the kitchen  
I'm a hit it from beside, he don't  
It's a shame he don't  
Treat you like you the queen that's on a throne  
All the games he on  
Wanna let him go, but you holding on  
The love is gone  
I got you confused  
It's the shit that we do, yeah  
I'll keep you wet all night  
No dry spot, let's take this shit to my spot  
I'm tryna make your spot hot  
Aye fuck your nigga, I'm your side guy

I'm stepping outta line  
I'm stepping outta line  
I'm stepping outta line  
I'm stepping outta line
