

I'll give you the world and what's inside it
I'm fallin in love and I can't hide it
I'm plannin a life that's full of surprises
For you and me no time for creepin
I risk it all in you to reason
Doin whatever you needed
Give you something to believe in
Protect yourself from all these demons
I'm nothin that you had before
And you the only one I want

You like them baller boys well I'm bout that ballin shit
Dirty yellow out the hood you ain't seen nuttin like this one
Destiny is true I'm tryna cater to you
My heart racing for you
Christian Loub's for Dior you know that's fine by me
Fawad to the yyyz
So go on and let me know what you waiting for
Cause I'm ready
Swear I'm ready to just

I'll give you the world and what's inside it
I'm fallin in love and I can't hide it
I'm plannin a life that's full of surprises
For you and me no time for creepin
I risk it all in you to reason

Doin whatever you needed
Give you something to believe in
Protect yourself from all these demons
I'm nothin that you had before
And you the only one I want

You fine as hell (uh) it ain't hard to tell
Designer bags with my name in her nails
Ooh you be killin shit on payin your bail
Oh you keep doin it and doin it well
Put that hurt on a shelf
Give me your love I promise I won't fail
That time is now its about us
Feelin like it was meant to be
But do you trust you was meant for me

I'll give you the world and what's inside it
I'm fallin in love and I can't hide it
I'm plannin a life that's full of surprises
For you and me no time for creepin
I risk it all in you to reason

Doin whatever you needed
Give you something to believe in
Protect yourself from all these demons
I'm nothin that you had before
And you the only one I want
