

Sex Like This

Jacquees

I got work if you need it
I know you be on your job
In this bed, you on the clock
Don't stop till that water drop
Put it on me
Let me kiss that button
This is what you wanted, don't start that runnin'
I can't help but watch you scream for your life
Let me know that I'm doin' it right
Makin' movies what we doin' tonight
What we doin' tonight

Freaky
You know what to do to keep me
I know all the ways you need me
We go rounds then we run it up to repeat
Oh

Girl, you know sex like this gets
Crazy
Girl, you know sex like this gets
Crazy
Girl, you know sex like this gets
Crazy
Girl, you know sex like this gets

When I bend you over, and I kiss your back like that
You start moving, quivering, shivering
I'll stroke you slow, and I know you'll throw it right back
How did we end up on this floor?
You said you want some more, girl, I'm like that
Perfect timing, we can come at the same time
And I wake you up for the nightcap

Freaky
You know what to do to keep me
I know all the ways you need me
We go rounds then we run it up to repeat
Oh

Girl, you know sex like this gets
Crazy
Girl, you know sex like this gets
Crazy
Girl, you know sex like this gets
Crazy
Girl, you know sex like this gets

Jacquees, sang, yeah-yeah
