Jacquees

Don't say no
You're all for me girl oh
Don't say no

Baby baby I'm the new nigga
Rocking shows oh I'm taking pictures
Know you want me baby
I know you probably want me baby
Keep your hair all neatly, better tie it up when you see me
Glass house full of weed seeds
Cop a [?] like I'm CB
Fuck all the talking, girl it's time for shots
I'll drink you down, don't you tell me stop
When you see me on your TV
Know you usually ain't easy
Got Patron cups or the Hennessy
Baby tell me what's your fantasy

Girl as we fell in love, faded at the club
Your touch turn to a rub, now I'm feeling on your butt
We should do the right thing
Tell me what you like bae
And I don't know your name, don't know your limit
But you can have anything, you can have anything
I'll take your number, I'll follow your page
But I can't fuck with anything, I can't fuck with anything

Come take a shot with me
Don't be shy (That's all it's gon take)
Come take a shot with me
Don't be shy (That's all it's gon take)

I'ma love you all night
He ain't even do you right
He ain't even worth a try
Oh what a waste of time
I'm Bobby Brown with the grind
Let's get away for the night
Let's step away from the light
I'll put my face by your tights
She got thang for them diamonds (For them diamonds)
Want me to drape her out in diamonds (In diamonds)
You want my love, you better show out
Girl I wish I knew you before you blowed up

Girl as we fell in love, faded at the club
Your touch turn to a rub, now I'm feeling on your butt
We should do the right thing
Tell me what you like bae
And I don't know your name, don't know your limit
But you can have anything, you can have anything
I'll take your number, I'll follow your page
But I can't fuck with anything, I can't fuck with anything

Come take a shot with me
Don't be shy (That's all it's gon take)
Come take a shot with me

Don't be shy (That's all it gon take)
