

## Start Over

Jacquees

Wouldn't be the first to say this  
I miss when we was best friends  
And I probably shouldn't have said that  
But I can't stop reminiscing  
How did we get so distant?  
Crossed all of the limits  
Knew too much of each other's business  
I'm trying to find some understanding  
Your family like my family  
We tried it all but

Can we start over, over, over?  
Yeah  
Can we start over?  
Can we start over?  
You can come over, over, over  
Yeah, you can come over  
You can come over

Yeah  
It'll be the best decision  
Yeah  
Would do whatever just to fix it  
'Cause I miss how we used to kick it  
Cooking food all in the kitchen  
I sweep the floor you do the dishes  
Five-star meal delicious  
Yeah  
If it wasn't Backwoods we would spliff it  
Now I'm a need some understanding  
You damn near was my family  
We done did it all but

Can we start over, over, over?  
Yeah  
Can we start over?  
Can we start over?  
You can come over, over, over  
Yeah, you can come over  
You can come over

Had to step back and make some observations  
It's still on lock you got the combination  
Instead of arguing let's elevate the conversation  
Work it like an occupation  
Flow don't make it complicated  
I want to take it back to when we met  
Before we had these notions in our head  
When we was trying our luck  
Talk 'til the sun would come up  
Right when we knew it was love

Start over, over, over  
Yeah  
Can we start over?  
Can we start over?  
You can come over, over, over

Yeah, you can come over  
You can come over
