

## Sunrise Service

Jacques

I'll give you sunrise service  
I'm knowing exactly what you need  
And when you're in sunrise service  
Baby, just ask and you'll receive

Know I been working late, let me finish this play  
Then, girl, I'm coming straight to you  
Too much been on your plate, so, girl, let's take a day  
Let's fly somewhere and book a room  
'Cause you deserve it  
Yeah, I see you working hard  
You're like Sunday Service  
You're a blessing, you are

I'll wrap these hundreds 'round these roses, that's your favorite flower  
Spray my cologne inside the letter so you know it's me  
I'll have the chef come cook you dinner while the sun go down  
I'll tuck you in when you go to sleep

I'll give you sunrise service  
I'm knowing exactly what you need  
And when you're in sunrise service  
Baby, just ask and you'll receive

Relax your mind, follow my lead  
I'm touching your soul, don't hold back your screams  
Don't you run, we got time, just breathe  
You not alone, girl, you safe with me  
Lit the candles on the dresser  
And I put on your favorite song  
Baby, you apply the pressure  
So let me match the time you on

I'll wrap these hundreds 'round these roses, that's your favorite flower  
Spray my cologne inside the letter so you know it's me  
I'll have the chef come cook you dinner while the sun go down  
I'll tuck you in when you go to sleep

I'll give you sunrise service  
I'm knowing exactly what you need  
And when you're in sunrise service  
Baby, just ask and you'll receive

I'll give you sunrise service  
I'm knowing exactly what you need  
And when you're in sunrise service  
Baby, just ask and you'll receive
