

# The Light

Jacquees

I wanna have sex, but not without the foreplay (okay, bool)  
But not without the D'usse (okay, bool)  
But not before I have to wonder if you let me hit  
If we could make a movie  
I wanna have sex, yeah, I'll have you drippin' to your feet babe  
Fly you out, fuck you on vacay, yeah

Ooh, when you're with me, don't everything feel right (don't everything feel right)  
Steal you from the spotlight (get away from the spot)  
Ooh, it's the way it goes, I'm tryna have a good night (tryna have a good night)  
I'm tryna fuck you all the time, yeah

It's everything, that I be ballin'  
Bitch broke up with me, now she callin'  
Take a shot with me, let's get faded  
You can fuck with me while you waitin'  
Come and talk, pour a round of the Patrón  
It's a vibe, girl, tell me what you on  
Yeah, it's a vibe, girl, I can't leave it alone  
Yeah, it's a vibe, girl, I wanna fuck you on  
Top of the covers  
Baby, spread your legs  
Don't you go against finesse  
Lay your head across my chest  
Ooh, ooh, after we have sex

Ooh, when you're with me, don't everything feel right (don't everything feel right)  
Steal you from the spotlight (get away from the spot)  
Ooh, it's the way it goes, I'm tryna have a good night (tryna have a good night)  
I'm tryna fuck you all the time, yeah

I wanna have sex, but not without the foreplay (no)  
But not without the D'usse (no)  
But not before I have to wonder if you let me hit  
If we could make a movie  
I wanna have sex, yeah, I'll have you drippin' to your feet babe  
Fly you out, fuck you on vacay, yeah
