

The Mud

Jacquees

Whoa-oh
Whoa-oh

I been through way too much
See it in my eyes ain't gotta say too much
Can't act surprised that it ain't no love
You know I tried but it ain't enough
R&B nigga but she say she want a thug
It hit different when you get it out the mud
I think they want my spot just because
It hit different when you get it out the mud

Say she could see herself with me but all you see is the life
She want me falling off my purpose just to make her a wife
I had to send her on her way I promise she'll be alright
Somebody else can have that problem, I'll be grinding all night
If you knew what it took and all the people that I left behind
Used to be full of love, I don't know what's left inside
Day ones switching up
Fake women switching sides
My mama told me to stay strong, but I want to cry sometimes
They see the diamonds, but I made it out the dirt
All this money won't erase all the hurt
Fuck these niggas I put God first
'Cause I know it could be far worse

I been through way too much
See it in my eyes ain't gotta say too much
Can't act surprised that it ain't no love
You know I tried but it ain't enough
R&B nigga but she say she want a thug
It hit different when you get it out the mud
I think they want my spot just because
It hit different when you get it out the mud

Drug it through the mud
I was in the dirt trying to climb to the top
I ain't get no love
Heart full of pain and trauma I'm trying to suppress it with drugs
I'm from the East if you slip out the store you get stomped like a bug
Give a fuck if you blood or cuz the young nigga bangin' slugs
Can't put my trust in a bitch, I'll never do it again
I was hustlin' you was fucking on both legs in your pants
Savin' all her nigga contacts with the same name as her friend
Sneakin' in the bathroom talking to Brittney but Brittney sound like a man
Now my trust fucked up
Now I hit and run I don't cuff
Pull her panties down I'm gon' call an Uber before she put 'em back on
Cold-hearted man my feelings gone
On God I had to find somebody else feelings just to put them in this song

I been through way too much
See it in my eyes ain't gotta say too much
Can't act surprised that it ain't no love
You know I tried but it ain't enough
R&B nigga but she say she want a thug
It hit different when you get it out the mud

I think they want my spot just because
It hit different when you get it out the mud

They see the diamonds, but I made it out the dirt
All this money won't erase all the hurt
Fuck these niggas I put God first
'Cause I know it could be far worse
