Im going state to state to shows before I hop all in my bag  
Niggas bragging bout my old hoes I been left em in the past

I was the youngin with a dream, really on a mission  
Told my momma and my sisters one day we would get it  
Seen a lil drought, needed money, hit the road with Quincy  
Took what I earned then I put it in the music business  
19 in a drop way before the Bentley  
Bitch I sing I don't rap, I just got it in me  
Tab me in like the phone when the bag call  
And tell your bitch to pull up with her panties off  
I always stood tall when the pleasure was applied  
Ain't no fear in me cause the pressure I supply  
Foreign whips I buy, foreign bitch on the side  
Matching baguettes go shoutout to [?]

Growing up had to hustle for what we wanted  
Walking to them grocery stores on corners  
Watching out real closely for opponents  
When its time to put shit in motion we up on it  
Its a few that didn't believe, they dead to me  
I swear them leaches breathe a different air from me  
A case and lawyers beat a couple felonies  
We ball for longevity  
And I take my time when im juugin on the road now  
Que get bout a hundred for a show now  
And my mouth is full of diamonds and some gold now  
Fast life im tryna slow down  
No lifers on the floor yeah  
No water it was cold yeah  
KT meet me at the Yo yeah  
And its rare real niggas like us so real, Que tell em again
