

Way Too Many Shots

Jacquees

Way too many shots
Now you in my bed
Got a man but you'd rather be with me instead
I'm a kiss all on your body and leave no regrets
Baby I'm gon' put ya down
Put you to the test yeah
You know the difference
When you're with him I know
You feel the distance (Oh yeah)
You know the difference
That's why you keep telling me you miss it

It's 4 o'clock in the morning and you missing me
I know you there with him you should be here with me
I think about the time we spend together constantly
Fuckin' you how you like it all in my backseat
Music to my ears when I hear you moan
He blowing up your phone I gotta get you home
Feels so right like we did nothing wrong
Late night dropping you off
Like he better not ask 'bout it
Gaslight him
Text me when he's sleeping by your side
We developed bad habits
One too many drinks and we back at it
Fuckin' like addicts

Way too many shots
Now you in my bed
Got a man but you'd rather be with me instead
I'm a kiss all on your body and leave no regrets
Baby I'm gon' put ya down
Put you to the test yeah
You know the difference
When you're with him I know
You feel the distance (Oh yeah)
You know the difference
That's why you keep telling me you miss it

Fuck long distance
Fuck phone calls, fuck FaceTime, I'm on a mission
Fuck long flights, I'm on a jet I gotta get it
Fuck on the bed, fuck on the floor, fuck in the kitchen
This my private show fuck all night no intermission
Girl I give you inches
Would you have my princess?
Love you down to your knees
I'll always provide and I promise not to leave your side
Your side
One shot, two shots, three shots, four
Five shots, six shots, seven shots more
I'm going all in
Baby if we drink some more
I'm going all in
Yeah

Way too many shots

Now you in my bed
Got a man but you'd rather be with me instead
I'm a kiss all on your body and leave no regrets
Baby I'm gon' put ya down
Put you to the test yeah
You know the difference
When you're with him I know
You feel the distance (Oh yeah)
You know the difference
That's why you keep telling me you miss it

You miss it
