

When You Bad Like That

Jacquees

Told me her favorite plate was steak so now a nigga shutting down Ruth's Chris

5:56 in the morning

Push start, start my car

I fly like a astronaut when I'm whipping up the Double R

Curbside valet at the Penthouse go right up

I been in the clouds, I been on that stuff

Audemar bad bitch, foreign car pulling up

These hoes know I'm true to this

Told me her favorite plate was steak so now a nigga closing down Ruth's Chris

Standing up just like the stallions, she dripping Manolo we know that was Louis Vuitton

I can go Phantom, Spaceship, Coupe, roof missing

You know how I'm coming 'bout you baby its whatever

I let you have your way, yeah

I can't keep my hands off of you when we together

I want to feel it all

Really you never ask for nothing

Anything you want you just got to say it

Whenever you need me, know I'm coming

'Cause when we make love you give me all I want

When you bad like that you know

Anytime you ever need me I'm just here to make it easy

Baby when you bad like that you know

New Chanel for your bag, I'm in love with how you throw it back

When you bad like that you know

It's a lot of niggas with a name

But I'm the one that ease your pain

I know you know I know

I'd give anything, I'd never say no

No, no,

No, no

No, no

No, no

I don't even know your name

Come and let you entertain you shawty

I been fiendin' for you all day

Let me drop it in your Cash App bae

Love the way that you came natural, easy decision

And I'm not here to complicate

I compliment your smile say "Have a blessed day"

You know you bad as hell, I don't wanna play no games

When you bad like that you know

Anytime you ever need me I'm just here to make it easy

Baby when you bad like that you know

New Chanel for your bag, I'm in love with how you throw it back

When you bad like that you know

It's a lot of niggas with a name

But I'm the one that ease your pain

I know you know I know

Yes, I know
I'd give anything, I'd never say no

No, no (Forever)
No, no (With you)
No, no (Yeah, I got you)
No no (For life)
