

You Need Me

Jacquees

I ain't in that business
Of being all in your business
But tell how he's treating you now, you now
Gave him another chance, to do you wrong
Seem like you sing that same old song
And I know I been to know you
But it's so much inside I wanna show you

'Cause he can't he can't love you like love you like
Like I want to, I want to
Shawty you need me
Baby you need me
Shawty you need me
So I'mma tell you alright
He can't he can't love you like love you like
Love you like I want to, I want to, I want to
Shawty you need me
Baby you need me

Do you see what I SEE?
A girl that's more than LONELY?
Looking for the same LOVE she already gives away?!
And I know I'm never on your mind
But could you listen to me this time?
Could you tell me if that's really where you wanna be?!

'Cause he can't he can't love you like love you like
Like I want to, I want to
Shawty you need me
Baby you need me
Shawty you need me
So I'mma tell you alright
He can't he can't love you like love you like
Love you like I want to, I want to, I want to
Shawty you need me
Baby you need me

I wanna hold you, kiss you, touch you
Kiss you everytime you leave me
'CAUSE YOU NEED ME
Don't you want somebody to LOVE YOU babe?
I wanna hold you, kiss you, touch you
Kiss you everytime you leave me
'CAUSE YOU NEED ME
Don't you want somebody to LOVE YOU babe?

If I don't anything, you just might be my everything
And he don't understand, he don't understand, he don't understand
How to be a man
So I'mma tell you like this

He can't he can't love you like love you like
Like I want to, I want to
Shawty you need me
Baby you need me
Shawty you need me
So I'mma tell you alright

He can't he can't love you like love you like
Love you like I want to, I want to, I want to
Shawty you need me
Baby you need me
'Cause he can't he can't love you like love you like
Like I want to, I want to
Shawty you need me
Baby you need me
Shawty you need me
So I'mma tell you alright
He can't he can't love you like love you like
Love you like I want to, I want to, I want to
Baby you need me
Shawty you need me
Baby you need me
Ye ye ye yeaaaah!
