

Your Body

Jacquees

You know most of the time niggas really
Acting like they got it
They don't got it
Dig what I'm saying?

Seem like the perfect time don't it
We ain't tryna rewind on it
Girl you know you put my mind on it
Girl you know I'll drop a dime on it

Right now, I'll do it right now, aye
Right now, I'll do it right now, aye
I don't know all your business
But I'm diggin' how we kick it
Yeah, I'm addicted

Think I'm addicted to your body
Keep having visions 'bout your body
I know you like it when I'm watching
I'm tryna start a body party
What you need is a rub
Come prepared for drugs
Put your phone on silent
No audience, no worrying
You know I'm having my way
You gotta do what I say
I do whatever it takes
Girl I've been so lonely

Seem like the perfect time don't it
We ain't tryna rewind on it
Girl you know you put my mind on it
Girl you know I'll drop a dime on it

Right now, I'll do it right now, aye
Right now, aye do it right now, aye
I don't know all your business
But I'm diggin' how we kick it
Yeah, I'm addicted

He say "yeah", I say "whoa", I say "yeah" (whoa!)
He told me spread my legs wide baby don't run
You keep looking at me, I know you want some
And we gon' put our phones down cause that ain't no fun
See, I been watching you... since way before
He told me scream out his name and I said say no more (It's a bet)
Keeps, that what we playing for
He just wanna, peek
He said what you hiding for
He said what you hiding for
He said what you hiding for (hiding from you)

Girl you know you put my mind on it
Girl you know I'll drop a dime on it

Right now, I'll do it right now, aye
Right now, I'll do it right now, aye

I don't know all your business
But I'm diggin' how we kick it
Yeah, I'm addicted
