

## Furious

Jade Bird

Did you make up your mind?  
When did you decide to let me down?  
When was the turning point?  
When you put out your joint and you laid her down  
She'd take off your tie  
With a smile, on knees  
I bet she looked pleased with herself

And I'm furious  
My whole body shakes  
I'm furious  
My mind slips away  
How could you do this?  
After everything  
I'm furious

Did you take off your ring?  
So the lady wouldn't look at you as you checked in  
And after waiting there on the bed  
Did everything I said sink in?  
Or did you just ignore all that came before that pretty little thing  
that you call [?]

And I'm furious  
My whole body shakes  
I'm furious  
My mind slips away  
How could you do this?  
After everything  
I'm furious

Baby, you're a fish on a wire  
Baited in a fishnet attire  
But, hey, you gotta live your life  
Right? Right?  
And I can't believe I fell like I did  
All your alibis reeled me in  
I swear I hear you laughing

And I'm furious  
My whole body shakes  
I'm furious  
My mind slips away  
How could you do this?  
After everything  
I'm furious with him
