

Glad You Did

Jade Bird

Heard you found someone and you feel less alone
When I got your mail posted through my door
And I think they're gonna get you with a real big fine
Bet you'll use your parents' money, you'll be all right
Don't mean to sound bitter 'cause you know that I'm not
Add it to the list of things you thought I forgot
Said I couldn't meet your friends 'cause I was too much
Do you tell your new girl to turn it down a touch?

Guess it worked out the only way that it could
When I was with you, it never made me feel good
Yeah, you made a mess of it, you let me slip right out your gri
p
You lost me, gone bit by bit, but I'm so glad you did

Heard you didn't quit, now you're smoking every day
Do you still do it 'cause you wanna escape
Or are you the life of the party now?
Can you breathe easier without me around?

Guess it worked out the only way that it could
When I was with you, it never made me feel good
Yeah, you made a mess of it, you let me slip right out your gri
p
You lost me, gone bit by bit, but I'm so glad you did

I used to know you better than the rest
Everything I hear now, it don't make sense
Maybe you have been changing for the best
I hate to say it, but I like you less

Guess it worked out the only way that it could
When I was with you, it never made me feel good
Yeah, you made a mess of it, you let me slip right out your gri
p
You lost me, gone bit by bit, but I'm so glad you did

Guess it worked out the only way that it could
When I was with you, it never made me feel good
Yeah, you made a mess of it, you let me slip right out your gri
p
