

Rely On

Jade Bird

Honeysweet, you know things aren't always easy
When you find you're people pleasing all of the time
Baby blue, I see the person in you
And it breaks my heart to watch your spirit die

If you need me to rely on, I'm there for you
Somebody in the wild, when the lions move
If you need me to rely on, I'm there for you
When it comes down to the wire
I'm the only one, only one you should choose

Cause a scene, no, I won't make a small incision
You know they're no good for you, so just put 'em down
Settled seas, more like avalanches
Pushing all that you have into the ground

If you need me to rely on, I'm there for you
Somebody in the wild, when the lions move
If you need me to rely on, I'm there for you
Somebody in the wild
I'm the only one, only one you should choose
Choose

Don't be scared 'cause I'll be there
Don't be scared 'cause I'll be there
Don't be scared 'cause I'll be there
Don't be scared 'cause I'll be there

If you need me to rely on, I'm there for you
Somebody in the wild, when the lions move
If you need me to rely on, I'm there for you
When it comes down to the wire
I'm the only one, only one you should choose
Choose

Don't be scared 'cause I'll be there
