

# Save Your Tears

Jade Bird

There's a sharp light  
Through your thin blinds  
And your sad eyes  
Drift through my mind  
It's a grey day  
By the lampshade  
There's you

Don't go walkin' with your head down  
I'd do anything for you now  
So just save all your tears for me  
So just save all your tears for me

There's a ticket  
On your table  
Come and see me  
If you're able  
Come back to me  
I've got clarity, oh

Don't go walkin' with your head down  
I'd do anything for you now  
So just save all your tears for me

You don't ever need to doubt  
I will always be around  
So just save all your tears for me  
Oh, just save all your tears for me

When the sky is fallin' down  
Look for me between the clouds  
I will always be around  
Save all your tears for me

When the day's too hard to face  
Make the dark illuminate  
I will take the sadness and the madness  
Turn the tragic into magic  
If you want it, you can have it  
Have it all for free

Don't go walkin' with your head down  
I'd do anything for you now  
So just save all your tears for me

You don't ever need to doubt  
I will always be around  
So just save all your tears for me  
Oh, just save all your tears for me

So just save all your tears for me  
So just save all your tears for me
