

Side Effects

Jade Bird

Whatcha say we just get away?
Pack up and save it for a rainy day
It's a side effect of love, my dear
Whatcha say we get out, just run?
Follow our instincts in the settin' sun
It's a side effect of havin' you near that's got me

Questionin' everythin' I've become
Wanted more than to be your number one
Hatin' everythin' I've come to be
Hey, baby, you wanna be happy with me?

Give me a sign and we'll go
If it's tonight or tomorrow
Give me a sign and we'll leave
If it's tonight, baby, please

Whatcha say you call your mother?
Say we're fightin' on in each other
And it's the side effect of growin' up nice
Whatcha mean that you're scared, babe?
Give me the keys, it's gonna be okay
It's just a side effect of changin' your life, that's got you

Questionin' everythin' you've become
Wanted more than to be your number one
Hated everythin' you've come to be
Hey, baby, you wanna be happy with me?

Give me a sign and we'll go
If it's tonight or tomorrow
Give me a sign and we'll leave
If it's tonight, baby, please

It's just a side effect of changin' your life
It's just a side effect of changin' your life
It's just a side effect of changin' your life
It's just a side effect of changin' your life

Give me a sign and we'll go
If it's tonight or tomorrow
Give me a sign and we'll leave
If it's tonight, baby, please
