

All Night To Figure It Out

Jade Eagleson

Are you gonna slide all tight up next to me
Or make me work a little bit harder?
Are you gonna keep that kiss on your pretty red lips
And make me wait a little bit longer?
Ooh, I'll do anything you want right now
If you don't know how much I want you, girl
We got all night to figure it out

Saved up a little bit of that foldin' money
Put on a little smell good
Cleaned all the muddy off my boots
Did it all for you
It took a little lookin' but I found you a daisy
Tryin' to cook up a little drive you crazy plan
Doin' all I can

Are you gonna slide all tight up next to me
Or make me work a little bit harder?
Are you gonna keep that kiss on your pretty red lips
And make me wait a little bit longer?
Ooh, I'll do anything you want right now
If you don't know how much I want you, girl
We got all night to figure it out

Baby, if you want, we could roll into town
But I know another road that I'd rather roll down with you
What's a man gotta do?
To even get a little more close to you
Share a slow dance and a harvest moon
The way that you're smilin', it's got me thinkin'
Maybe you're feelin' it too

Are you gonna slide all tight up next to me
Or make me work a little bit harder?
Are you gonna keep that kiss on your pretty red lips
And make me wait a little bit longer?
Ooh, I'll do anything you want right now
If you don't know how much I want you, girl
We got all night to figure it out

Are you gonna slide all tight up next to me
Or make me work a little bit harder?
Are you gonna keep that kiss on your pretty red lips
And make me wait a little bit longer?
Ooh, I'll do anything you want right now
If you don't know how much I want you, girl
We got all night to figure it out
