

Little Less Lonely

Jade Eagleson

Clock won't tick, phone won't ring
I can't fix his broken heart so I'll just fix another drink
I can't get no sleep, nothing on TV
Girl, I forget just why you left and why the hell I let you leave

So if you think I'm movin' on, girl, you're dead wrong
I'm sittin', drinkin', wishin' that we never called it off

So we don't gotta take back what we said
We don't gotta fix what's broken
You don't gotta text or call ahead
Baby, my night's wide open
I ain't over you, you ain't over me
I'm in the same boat, girl, right down the street
Why we sittin' at home when we could be
A little less lonely?

A little less lonely

We could dance around it, call it a one night thing
If you want to drunk-dial me, you know I'll be pickin' up the first ring
If you think I'm movin' on, girl, you're dead wrong
I'm sittin', drinkin', wishin' that we never called it off

So we don't gotta take back what we said
We don't gotta fix what's broken
You don't gotta text or call ahead
Baby, my night's wide open
I ain't over you, you ain't over me
I'm in the same boat, girl, right down the street
Why we sittin' at home when we could be
A little less lonely?

I could use a little more of your lips on me
A little more like they used to be
Why we sittin' at home when we could be
A little less lonely?
A little less lonely

So we don't gotta take back what we said
We don't gotta fix what's broken
You don't gotta text or call ahead
Baby, my night's wide open
I ain't over you, you ain't over me
I'm in the same boat, girl, right down the street
Why we sittin' at home when we could be
A little less lonely?

A little less lonely
A little less lonely
