

## Whiskey Around It

Jade Eagleson

Black label on the kitchen table  
Beside a low ball glass that's sittin' on E  
Sundown sippin' while the needle's slippin'  
Through a George Jones vinyl Side B  
I'm 3 drinks deep on a Tullahoma high  
But I already know where it's goin' tonight

I've been tryin' to get a handle on missin' on you  
But all it got me was a handle on this 90 proof  
It's been a hell of a hell and back bender  
Since the gravel hit your fender and you hit me with goodbye  
I'm floating up G.D creek without a prayer  
Gettin' gone over you ain't gettin' me nowhere  
It's no use, no two ways about it  
Me lovin' you girl, I can't whiskey around it

I tried straight shootin' my way through it  
I'm still stuck between on the rocks and a heartache  
It's clear as a bottle at the bottom  
There ain't no drownin' this blue eyed problem

I've been tryin' to get a handle on missin' on you  
But all it got me was a handle on this 90 proof  
It's been a hell of a hell and back bender  
Since the gravel hit your fender and you hit me with goodbye  
I'm floating up G.D creek without a prayer  
Gettin' gone over you ain't gettin' me nowhere  
It's no use, no two ways about it  
Me lovin' you girl, I can't whiskey around it

Girl this ninety ain't nothin'  
No it ain't nothin' on you  
And I can swear that I'm over it but I can't drink it true

I've been tryin' to get a handle on missin' on you  
But all it got me was a handle on this 90 proof  
It's been a hell of a hell and back bender  
Since the gravel hit your fender and you hit me with goodbye  
I'm floating up G.D creek without a prayer  
Gettin' gone over you ain't gettin' me nowhere  
It's no use, no two ways about it
