

Grapevines

Jade LeMac

Feed me off of those grapevines
Let's make wine
Let's make love
Let me take it off
Show you some of that sweet violence
Push me over that sharp edge
Let's confess
Let's be real
Don't be chill
Fill the room but don't keep silent

Aren't we always
Aren't we always looking for
Someone who
Breaks the rules
Hits it good
I can do
That for you
Tell me...

Have you sipped enough of me from your glass
Enough to keep you coming, come back for some more
Every time we mix it it's a wrap
Have you, ha-ha-have you
(Have you) ever had to have it so bad
So bad that you come and come back for some more
Every time we mix it it's a wrap
Have you, ha-ha-have you

Feed me off of those grapevines
We got time
Let's get it on
Fuck til the dawn
Hit my peak when the sun's rising
Ok, I'm feeling different
Ok, I can't resist it
Ok, got me submissive
Ok, ok I get it

Aren't we always
Aren't we always looking for
Someone who
Breaks the rules
Hits it good
I can do
That for you
Tell me...

Have you sipped enough of me from your glass
Enough to keep you coming, come back for some more
Every time we mix it it's a wrap
Have you, ha-ha-have you
(Have you) ever had to have it so bad
So bad that you come and come back for some more
Every time we mix it it's a wrap
Have you, ha-ha-have you

Feed me off of those grapevines, yeah
I'm high on them grapevines, yeah
Sugar got me up all night
Might never let go if I have you

Aren't we always
Aren't we always looking for
Someone who
Breaks the rules
Hits it good
I can do
That for you
Tell me...
