

Last Day On Earth

Jade LeMac

My thoughts on display
They're filled with your name
Close my eyes, will you stay?
For me

Say things, we don't say
Spilling out our brains
If we both go insane
Will we feel the pain?

If this was our last day on earth
I'd spend it with you
And do all the things we've been too scared to do
If everything's cursed
There's nothing to lose
Let's slow dance in silence while smoke fills the room
Fuck being safe
Let's make big mistakes
Drink the night away
If this was our last day on earth

Sex under the fire
We eat till we're tired
Run where we desire
Cause we live like

We are young
And life is dumb
What's the point of living underneath the burning sun?
We are young
And life is done

If this was our last day on earth
I'd spend it with you
And do all the things we've been too scared to do
If everything's cursed
There's nothing to lose
Let's slow dance in silence while smoke fills the room
Fuck being safe
Let's make big mistakes
Drink the night away
If this was our last day on earth

We are young
And life is dumb
What's the point of living underneath the burning sun?
We are young
And life is done

If this was our last day on earth
I'd spend it with you
And do all the things we've been too scared to do
If everything's cursed
There's nothing to lose
Let's slow dance in silence while smoke fills the room
Fuck being safe
Let's make big mistakes

Drink the night away
If this was our last day on earth

Should we be scared?
Let's go crazy
Live with no fear
I've got you
I've got you

Should we be scared?
Fuck being safe
(Let's go crazy)
Let's make big mistakes
(Live with no fear)
Drink the night away
(I've got you)
If this was our last day on earth
