

# Let Me

Jade LeMac

Every day you try sleep  
And you close your eyes as thoughts come creeping in  
Your bed, your bed  
And every day you try to eat  
And all the memories come seeping in  
Your head, your head

I know that you're feeling haunted  
I know that you're feeling lost  
Just send an S.O.S  
I will guide you with the stars

If you're drowning  
I will save you  
I'll give you my air  
Just let me  
Just let me  
If you're falling  
I will catch you  
One call, I'll be there  
Just let me  
Just let me

Lately you have pushed away  
The ones who ask you how your day was cause  
You're fine, you're fine  
But I can see right through your make up  
To see that you don't think you're enough  
Look through my eyes

I know that you're feeling haunted  
I know that you're feeling lost  
Send an S.O.S  
I will guide you with the stars  
(Guide you with the stars)

If you're drowning  
I will save you  
I'll give you my air  
Just let me  
Just let me  
If you're falling  
I will catch you  
One call I'll be there  
Just let me  
Just let me  
Let me help you

Screaming out your name  
Do you follow?  
Reaching out my hand  
Yea there's still hope  
Listen to the current  
Waves won't stop the hurting  
You know I'll never let you go  
Never let you go  
So don't let me go

If you're drowning  
I will save you  
I'll give you my air  
Just let me  
Just let me  
If you're falling  
I will catch you  
One call I'll be there  
Just let me  
Just let me  
I will save you, darling  
So don't let me go
