

## Same Place

Jade LeMac

My mind has a place  
Where it goes when I don't feel safe, no  
It pictures us two  
At the alter saying "I do"

And I know and I know and I know  
It's control it's control it's controlling me  
Won't let go won't let go won't let go  
Cause I love this feeling

Now it makes sense to me  
Why we both ended up in the same place  
And it all makes sense to me  
Why all that I wanted was your name  
And it all makes sense to me  
Now that you're in my life  
Now that you're all I see  
Now that I call you mine  
It all makes sense to me  
Why we both ended up in the same place

Your arms are my home  
In the night time when I feel alone and  
Your lips are a cure  
For the pain that my heart endures, no no

And I know and I know and I know  
It's control it's control it's controlling me  
Won't let go won't let go won't let go  
Cause I love this feeling

Now it makes sense to me  
Why we both ended up in the same place  
And it all makes sense to me  
Why all that I wanted was your name  
And it all makes sense to me  
Now that you're in my life  
Now that you're all I see  
Now that I call you mine  
It all makes sense to me  
Why we both ended up in the same place

If I had a single chance  
I wouldn't change a thing  
Cause all I know is without you  
I'd be missing something  
If you didn't walk on by  
How would I have known  
What it's like to be loved by  
An angel of my own

Now it makes sense to me  
Why we both ended up in the same place  
And it all makes sense to me  
Why all that I wanted was your name  
And it all makes sense to me  
Now that you're in my life

Now that you're all I see  
Now that I call you mine  
It all makes sense to me  
Why we both ended up in the same place
