

Christmas In Bed

Jade Novah

I've been counting down the days
And thinking of all the ways
That we could stay up and wait all night
It's too cold to go outside
Let's stay by the fireside
And just keep each other warm tonight

It's like chocolate covered peppermint
And once you get a taste of it
You gone be wanting more and more
All the lights are shining beautiful
But we ain't gone need them no more
Our future is a present
Wanna unwrap it
Gotta have it

You're my surprise
How better can it get
No plans
So let's just spend all day on Christmas in bed
Christmas in bed
Christmas in bed
I don't need nothing instead
I don't need no gifts wrapped in your love instead
Christmas in bed
Christmas in bed
Christmas in bed
Christmas in bed
Baby, can we just spend Christmas in bed?

This feels like a gift that just keeps on giving
All this time that we spending
It's feels worth it, yeah
And we deserve it
Underneath the snowy skies
The perfect alibi to keep each other warm tonight

It's like chocolate covered peppermint
And once you get a taste of it
You gone be wanting more and more
All the lights are shining beautiful
But we ain't gone need them no more
Our future is a present
Wanna unwrap it
Gotta have it

You're my surprise
How better can it get
No plans
So let's just spend all day on Christmas in bed
Christmas in bed
Christmas in bed
I don't need nothing instead
I don't need no gifts wrapped in your love instead
Christmas in bed
Christmas in bed
Christmas in bed
Baby, can we just spend Christmas in bed?

No baby, I don't need nothing instead
Christmas in bed
Christmas in bed
Christmas in bed
Baby, can we just spend Christmas in bed?
