

Come Back

Jade Novah

Eenie, meenie, miney, mo, oh
Catch 'em everywhere I go, go
When they holler, let them know, know
Ain't no goin' back and forth, nah
I be coastin' my own lane, yeah
I ain't got no time for the games, nah
They be tryna say I changed, yeah
You just mad you stayed the same

I be tryna stay up and I like it when I'm there (Yeah)
When I'm there (Yeah), I ain't lookin' back
On my way up, I ain't goin' down (Down)
Been there (Yeah), doin' me now

When they see you on the way up (When they see you)
They always try to come back (Always try to come back)
When they see you got your weight up (When they see you)
They always try to come back
Always tryna come back, come back (They try to come back)
Come back, yeah
Always tryna come back, come back (They try to come back)
Come back, come back (Yeah)

I gave them clowns a second chance, they wanted four more
Now them niggas missin' out on me like they got FOMO
Only time they see my ass is scrollin' through my photos
They say to keep your foes close, but to me, that's a no no
I don't like no broke hoes who be tryin' to say they know me
Y'all bitches be hellas phony, y'all only just knew the old me
Homie, don't know where you think this is going with me
'Cause, homie, don't hit me just 'cause you're lonely
I'm hot, now you want up on me

Tryna stay up and I like it when I'm there (Yeah)
When I'm there (Yeah), I ain't lookin' back
On my way up, I ain't goin' down (Down)
Been there (Yeah), doin' me now

When they see you on the way up (When they see you)
They always try to come back (Always try to come back)
When they see you got your weight up (When they see you)
They always try to come back
Always tryna come back, come back (They try to come back)
Come back, yeah
Always tryna come back, come back (They try to come back)
Come back, come back
