

# Like That

Jade Novah

First time I saw you you looked too good to be good to me  
Baby, but you proved me wrong all along  
You feel too good to be true, baby  
You do, baby

You love your mother  
Ain't got no other lovers  
Used to playing games with them but you ain't like them others  
Got it out mud  
You know what you want  
You do, babe, you do, baby

Words don't mean nothing to me if your  
Actions don't do what you speak, nah nah  
I've been a queen you a king for sure  
Never met no one like you before

How you look like that and treat me like that  
How you got that bag and spend it on me like that  
How you talk like that, how you walk like that  
I want you, baby, ooh, baby

All I see are green flags left and right them  
Green flags don't stop that gives you the green light  
It's yours you got claim on it, come put your name on it  
Ooh, baby, ooh, baby

You give me all wants like my wants are my needs, yeah  
You ain't afraid to love me like you got on one knee, yeah  
Got me so far gone I don't care what no one say  
Treat me like a star everyday like a birthday

Do me like that  
You do it so good how you get it like that  
Like when you touch me like that  
Always get it right, yeah, you be knowing  
Never been this wide open  
This all I ever wanted  
I just want you, baby, ooh baby

How you look like that and treat me like that  
How you got that bag and spend it on me like that  
How you talk like that, how you walk like that  
I want you, baby, ooh, baby

All I see are green flags left and right them  
Green flags don't stop that gives you the green light  
It's yours you got claim on it, come put your name on it  
Ooh, baby, ooh, baby

Been waiting here now don't have to wait no more  
I know that you're the one I been here waiting for  
You get in what you put out  
I'm matching your energy now  
Your love looks good on me

How you look like that and treat me like that

How you got that bag and spend it on me like that  
How you talk like that, how you walk like that  
I want you, baby, ooh, baby

All I see are green flags left and right them  
Green flags don't stop that gives you the green light  
It's yours you got claim on it, come put your name on it  
Ooh, baby, ooh, baby
