Newness

Jade Novah

I want passion fast, do you got passion? I
Had last night, please pardon me for asking, just
Fascinate me, yeah, I want that magic, and
Take me up high, take me up high, yeah
I could branch out but ain't no need for actin', nah
Just turn them lights down and give me that action, yeah
We breakin' everything, breakin' bad habits, yeah
Let's get lost, yeah, let's get lost

I know a place that's not far we can go
Got some green in my rocket, let's spark it and roll
Let's get caught up in the moment, it's on us for sure
We just want the vibes, yeah
We just want the night, yeah, yeah

All dogs do not go to Heaven
So don't get caught up in perfection, ah
You can use me as your lesson
All them fires, we can try them

Somethin' crazy on that new shit, new shit
Out the daily on some new shit, new shit
Thought maybe we could spark a newness, new shit
So baby, if you down to ride, we could fly down
We can try it out

I put it out there, so go ahead and grab it, you
Said you can't take it, boy, don't be dramatic, we
High off that energy, we drunk on passion, yeah
I'll be alright, I'll be alright, yeah
It ain't no fun if you always just plannin', let's
Go alien and get kicked off this planet, yeah
Do somethin' nasty like my name was Janet, yeah
Let's get lost, yeah, let's get lost

I know a place that's not far we can go
Got some green in my rocket, let's spark it and roll
Let's get caught up in the moment, it's on us for sure
We just want the vibes, yeah
We just want the night, yeah, yeah

All dogs do not go to Heaven (Yeah)
So don't get caught up in perfection, ah
You can use me as your lesson
All them fires, we can try them

Somethin' crazy on that new shit, new shit

So baby, if you down to ride, we could fly down (We could fly)
We can try it out (Skrrt)

Usually on one, but I know I'm on to something (Yeah)
But lately, girl, I been the one wantin' more instructions, ayy
Deep in your thought, euphoria when we lovin'
Way up in the clouds, got me in the sky (Goin' up)
They can't give me what I field at you, no (Woo!)

They can't hear harmonies like we do, no
We be tapped in, seeking its truth, yeah
Lost up in the clouds, floating in the sky (Sky)

All dogs do not go to Heaven (Yeah)
So don't get caught up in perfection, ah
You can use me as your lesson (Teach me, girl)
All them fires, we can try them

Somethin' crazy on that new shit, new shit (Yeah)

Thought maybe we could spark a newness, new shit (Woo!)

We can try it out (Skrrt)
