

Rollercoaster

Jade Novah

We can take the high road for another day
Maybe not tomorrow, that's okay
'Cause we be up and down but we never give up
Even if we might crash, no we never slow up, we don't

We be living it on the edge, baby
We be getting reckless but we always regret it
I know I do, yeah
Do you? Yeah, yeah

Sometimes you just like to agree with me
You say anything 'cause you like making up with me
Climb on me, I want you on me
If you take me higher, I could make you scream, yeah yeah

You're my rollercoaster, baby let me ride
Don't worry 'bout the low low once you get inside, yeah
So what we gon' do? Get inside, yeah yeah
It's only you, we can ride, yeah yeah
You're my rollercoaster, take me down the array
Screaming like a high note once you hit them curves
So what we gon' do? Get inside, yeah yeah
It's only you, we can ride, yeah yeah

I wanna get lost in it, I wanna go all day
You know that I ain't leaving so don't keep me waiting
Yeah, I like when I get my way, way
I wanna lose my breath

Take me deeper, I wanna go deeper
What you meant but you don't remember, no
I'ma make you take your eyes and need it, tell me what it taste like
Gotta take it all, ain't no getting off

We on and on, we on
Yeah, I think we got each other now
When you climb on me, I want you on me
If you take me higher, I could make you scream, yeah yeah yeah

Coaster, baby let me ride
Don't worry 'bout the low low once you get inside, yeah
So what we gon' do? Get inside, yeah yeah
It's only you, we can ride, yeah yeah
You're my rollercoaster, take me down the array
Screaming like a high note once you hit them curves
So what we gon' do? Get inside, yeah yeah
It's only you, we can ride, yeah yeah

You know we get high, go low
That's just how we get there
Rollercoaster up and down
Everyday be different
With you, it's just what we do
You going saying anything
And I start matching energy
We both say shit we never mean
But that just put us more into the mood

Always a surprise, you know we be on a ride

Be my rollercoaster, baby let me ride
Don't worry 'bout the low low once you get inside, yeah
So what we gon' do? Get inside, yeah yeah
It's only you, we can ride, yeah yeah
You're my rollercoaster, take me down the array
Screaming like a high note once you hit them curves
So what we gon' do? Get inside, yeah yeah
It's only you, we can ride, yeah yeah
