

Hold Me Close

Jade

I want you to
Hold me by candlelight (Baby, hold me)
I want you to
Hold me let's make (Hold me) it right (Ohh)
Ooh, hold me (Hold me)

Call me a lucky girl, saved from my sheltered world
I share myself with a irresistible lover
You make me feel secure, and let me know for sure
That no one else can ever have your heart

At last, we both can say
There's nothin' that we won't do for each other
Real love will find a way
After all that we've been through, I'll be ever faithful to you

Hold me close, hold me close
And baby, never ever let me go (Never let me go)
When I cry (When I cry), wipe my eyes (Wipe my eyes)
Hold me close by candlelight

Girlfriend don't understand, that she don't have one man
To feel complete love, she has to turn to another
You're all the man I need, I'm satisfied when we
Make love to each other

At last, we both can say
There's nothin' that we won't do for each other
Real love will find a way
After all that we've been through, I'll be ever faithful to you
At last (At last), we both can say (Can say)
There's nothin' that we won't do for each other (Ooh)
Real love (Real love) will find a way (Ohh)
After all that we've been through, I'll be ever faithful to you

Hold me close, hold me close
And baby, never ever let me go (Don't never let me go, no)
When I cry, wipe my eyes (Wipe my eyes)
Hold me close by candlelight
Hold me close (Hold me), hold me close
And baby, never ever let me go (Don't never let me go, no, no)
When I cry, wipe my eyes (Wipe my eyes)
Hold me close by candlelight

Hold me, ohh
When I cry, wipe my eyes
Hold me, touch me
Do what you do to me
Mm-hmm

Hold me close, hold me close
And baby, never ever let me go (Never, never let me go, ho)
When I cry, wipe my eyes (Oh yeah, yeah)
Hold me close by candlelight
Hold me close (Hold me), hold me close
And baby, never ever let me go (Never, never let me go, ho)
When I cry, wipe my eyes

Hold me close by candlelight
