

Give It Back

Jaded Heart

Where are the times of great miracles?
Are there just crimes, is it love that fails?
You can only see the sad times, bad times
Oh no, where do we go?

Give us back the love
And all the joy that we lose
Give us back the love
There's better life to choose
Give us back the love
And all the joy that we lose
Give us back the love
There's better life to choose, life to choose

See the young girl searching for her only friend
The streets all destroyed, standing in nowhere land

Give us back the love
And all the joy that we lose
Give us back the love
There's better life to choose
Give us back the love
And all the joy that we lose
Give us back the love
There's better life to choose, life to choose

I can only see the sign, sign
I can only see the sign, sign
I can only see the sign, sign
I can only see the sign

Give us back the love
And all the life that we lose
Give us back the love
There's better life we choose
Give us back the love
And all the joy that we lose
Give us back the love
There's better life we choose
Life we choose

Give us back the love
Oh baby
Give us back the love
Love
Oho
Give back the love
Oho
Love

Give us back, give us back, give us back the love we need
Love that we need
Give us back the love
Give it back give it back give it back to us....
Give us back the love
