

Crazy

Jaden Smith

(You know how to bring out my inner worst
Baby you know how to make it hurt
Keep my guard down, heart down
I can't focus when you're all around)

Crazy
You sound crazy baby
You cant save me
Save me for a rainy day
That's crazy
You sound so crazy baby
You can't save me for the times you don't feel amazing
Girl that's crazy

It's on and poppin'
She came to the crib and started Christmas shopping
Looking through my closet she got different options
Call my car to get me, pop the wings and hop in
Yeah, red pill, blue pill, girl this is not the Matrix
Holistic garden pillly popping might just give you lasic
MSFTS lenses, rainbow Benzes, we don't do the basics
My bank account just tripled down before you start your day shift
Supermodels in the spaceship
It's lit again
Squad splitting dividends
Plug, not no middle man
Sweet stuff cinnamon
She just wanna get a tan
I'm trappin' out the mini van
This ain't no b-side
Hit the freeway link up with my niggas on the east side
G ties
Pay her ass a visit then it's peace signs
Let her sit with how she lost me in the meantime

Crazy
You sound crazy baby
You cant save me
Save me for a rainy day
That's crazy
You sound so crazy baby
You can't save me for the times you don't feel amazing
Girl that's crazy

Switching lanes puffing smoke
She grab my hand she won't let go
Nigga you lame, hold on to the ropes
Can't go in my closet, that shit frozen
Took some pills and I drive slow
I got a blick but nobody knows
Sidekick I roll with the bros
Big clip I keep for the lows
MSFTS all rolling stones
Super bad
You Jonah Hill, I'm feeling you
You Super Bad
Hey I might of took a pill or two, I'm too relaxed

Whole clique full of super heroes, super facts
Working out of magic city, so she cuffin' stupid racks
She got in the whip, said where the roof is at?
Flew her out to Nassau then I flew her back
Visions turning into premonitions, how you doing that
Niggas really think I'm new to the raps
Since SYRE I was staying true on the map

[?] back
Laid lines like congruent
I'm doing magic like Newton
Arcanine with the music
Solar panels on the roof
Gonna make sure the crew keep moving
Boy snapping like a toothpick
Wrist busting I ain't stupid
Yacht looking like a cruise ship
Drop top Malibu shit
Y'all boofing
Talk talk, need to prove it
Ride around with a cube with me, no Rubics
Ay, no need to be mad
You was hating, this is payback
I know you know I could rap
I just pour it in a soda and spazz, nigga

(You know how to bring out my inner worst
Baby you know how to make it hurt
Keep my guard down, heart down
I can't focus when you're all around)

Crazy
You sound crazy baby
You cant save me
Save me for a rainy day
That's crazy
You sound so crazy baby
You can't save me for the times you don't feel amazing
Girl that's crazy
