

# Deep End

Jaden Smith

I wish you loved me like your cell phone  
My flight just landed but the airport's closed  
I got a car that drives itself, though  
Ask me where we're going and I really don't know

Ooh-ahh, in my dreams we takin' flight, oh  
Zero gravity, wait till the lights get low  
You're in my room but we're in space though  
There's a lake on the moon

Let's go diving in the deep end  
Wanna fall into you deeper  
Let's not wait until the weekend  
Let's go diving in the deep end  
Deep end

Pink outside, boys fitted for the vibe  
Baby, touch on my line, maybe we should take a drive  
Looking all high, simply 80s in the sky  
Got a house by the beach, man, the mood feel right  
Michelle, I got a crystal for you  
Flowers in your pigtails  
A boat with the big sail for you  
Look at the stars tonight  
They all just remind me of you  
Still live in Malibu, right?  
'Cause last time that I came over you had a Range Rover  
You was layin' low  
You was playin' with me girl on the piano  
We was lookin' at the water, take my hand now

Let's go diving in the deep end  
Wanna fall into you deeper  
Let's not wait until the weekend  
Let's go diving in the deep end

Let's go diving in the deep end  
Wanna fall into you deeper  
Let's not wait until the weekend  
Let's go diving in the deep end  
Deep end

Girl, be my butterfly  
Can't wait another night  
Half way through summertime  
Damn girl, we gotta try  
Girl, be my butterfly  
You're always on my mind  
And if you want to fly  
There's a lake on the moon

Let's go diving in the deep end  
Wanna fall into you deeper  
Let's not wait until the weekend  
Let's go diving in the deep end

Let's go diving in the deep end

Wanna fall into you deeper  
Let's not wait until the weekend  
Let's go diving in the deep end  
Deep end
