

## FALLEN Part 2

Jaden Smith

Let your heart just rest on mine girl  
The more I love, the more I like  
Let your heart just rest on mine girl  
The more I love, the more I like  
Let your heart just rest on mine girl  
Look at yours, it's alright  
I just wanna hold you tight girl  
The more I love, the more I like  
Let your heart just rest on mine girl  
The more I love, the more I like  
Let your heart just rest on mine

Remember the time, when our hips were tight  
You're my reminder, I need to find  
Girl we came so close  
I still got your clothes sitting in my room, while I play this music  
You're not my girl no more  
Let the rain just pour, while I lay here and listen to music  
Staring at the city lights on the bright side  
You found another guy, just hope you're alright  
Sure you'll be alright, prolly hold you tight  
Don't you worry bout how I feel tonight  
Girl tomorrow I'll catch another flight  
I'll be sitting by you, so we didn't try  
I don't wanna cry, don't want butterflies  
You gotta fly, said I love you, and I didn't lie

You're all I know  
I still got your poems hanging in my room, while I play this music  
I can't find you at home  
At least I know you're gone  
Summer's chasing away, and now your're losing  
Staring at the city lights on the bright side  
I don't wanna see you on the edge  
You found another guy, just hope you're alright  
I just wanna see you in my bed  
Sure you'll be alright, prolly hold you tight  
Baby girl, this love is not a game  
Don't you worry bout how I feel tonight  
Girl tomorrow I'll catch another flight  
Baby girl this love is not a game  
I'll be sitting by you, so we didn't try  
Life and death are really not the same  
Tryna make it right, tryna make a life  
Tryna butterfly, said you gotta fly
