

# Jus' Not Ready

Jaden Smith

You remember... last November  
Or was it October? You was over  
Oh it was getting colder  
It's the middle of December and as they was burnin wheels were turning  
And I was yearning for you  
Girl, I'm usually a playa but tonight I'm turning for you oh  
Girl I couldn't even speak that night  
You remember at the beach that night?  
There was no one on the street that night  
Rolled up, I was looking like a creep that night  
Then you came inside my tent to come and get me in  
You whispered and you as if I  
Was ready and I wasn't but girl

All I wanna do is take my time with you  
So if this love is true  
Then you'll wait for the 2 of us

All I wanna do is take my time with you  
So can we keep it cool?  
Cause baby this is new oh-oh

Wanna be my girlfriend and my lover but I'm just not ready  
Wanna be my girlfriend and my lover but I'm just not ready  
Wanna be my girlfriend and my lover but I'm just not ready  
Oh no I'm just not ready, oh no I'm just not ready

Girl you bout to get me in some drama  
Feelin like a storm comin  
And I know you're dealing with these problems  
And I know there's more coming  
And you dealin' how you can  
Hope you know I really understand  
I just gotta be the realest while I can  
Cause it's a little jokers chance  
Things spread like cancer  
On the Kansas  
Baby girl let's ride  
Take her to the spot on the top and we never gonna stop  
Show me what you got  
Never gonna dry  
No, we never gon stop  
Cause someone that make you last  
Don't worry bout them jokers in the class cause he always talkin trash  
I'm a put him in the past  
In a Beemer and I kinda got it going really fast

All I wanna do is take my time with you  
So if this love is true  
Then you'll wait for the 2 of us

All I wanna do is take my time with you  
So can we keep it cool?  
Cause baby this is new

Wanna be my girlfriend and my lover but I'm just not ready  
Wanna be my girlfriend and my lover but I'm just not ready

Wanna be my girlfriend and my lover but I'm just not ready  
Oh no I'm just not ready, oh no I'm just not ready

I'm cool as the wind blows  
Please open up a window  
Cause it's hot in here  
And it's cold when you're not in here  
Your body ridin, got a headache  
I'm a lay you down cause my body gettin' heavy  
Girl you should drop it like it's hot cause I'm ready  
And I'm a lean in, but only if you're let me... oh  
Come into my villa like get it  
You can be my Krugger like Freddy  
Cougar, you ready?  
Some you can show me  
You can be my friend  
You can be my homie  
You can call me homie cause I'm really lonely  
And we could do it fast or we could do it slowly holy... crap  
You don't even know me, on Twitter call me a phony  
When it's time you gone, passing your pony up

All I wanna do is take my time with you  
So if this love is true  
Then you'll wait for the 2 of us

All I wanna do is take my time with you  
So can we keep it cool?  
Cause baby this is new

Wanna be my girlfriend and my lover but I'm just not ready  
Wanna be my girlfriend and my lover I'm just not ready  
Wanna be my girlfriend and my lover but I'm just not ready  
Oh no I'm just not ready, oh no I'm just not ready
