Keep the diamonds dancin' on my neck (Shinin')  
Big ass wrist imprinted on my 'Lex (Goin' cray)  
Cookies lit I gotta rep the set  
Since New Years you niggas drippin' wet  
It's different now just get it through your head (So wavy)  
I never talk except for that charge  
The wrist on Russ, I'm ready to go  
Louis Vuitton and pass the katana  
Still got a burner, I'm ready to go

Tell me I'm too bad, I'm really sorry  
Riding 'round, top down, this LaFerrari  
This shit cast big shadows, niggas all weak  
I'm blowing up your phone when you're so sus

Push your vision on the road like a runnin' back  
I'm just chillin' with the bros up a hundred packs, that's okay

Toss that shit, look, wait  
Pass that shit, look, wait  
Gas that shit, look, wait  
Toss that shit, look, wait  
Pass that shit, look, wait  
Gas that shit, look, wait  
Toss that shit, look

1942 I'm off the 'gnac  
I ain't been this fucked up in a sec (No way)  
All they want is clicks on the net (That's a fact)  
It's why they always comin' for my head  
Say, "Ma, can we pay attention less?"

I'm fallin'  
They know

We are fallin', fallin' down  
Few broke martians  
Just starin' at the sky, oh my

Under the First Street Bridge, people playin' like kids  
This is the shit that I hide from my therapist  
Man I'm embarrassed as shit (Damn)  
Jugged a pound for the drip  
Dodgin' perps, switchin' whips  
Remember playin' for the chip
