

# "Roses"

Jaden Smith

Roses

Left them at your door cause I was hoping  
They would lead you home tonight cause I  
Don't sleep unless your by my side  
Just tell me what it takes and I'm all yours  
Heartbreak and oil paintings on cardboard  
Girl that's not a Great Lake that's a harbor  
Your face looks like stars when it gets darker  
I'm sorry how are situations dying out  
I just wanna take you home  
I just wanna take you home

Roses

Left them at your door cause I was hoping  
They would lead you home tonight cause I  
Don't sleep unless your by my side  
Just tell me what it takes and I'm all yours  
Cause I been standing here on this home phone for way to long  
And I know your father told you that he should run along  
Twisted oak trees and dirt roads  
I'm sorry how are situations dying out  
I just wanna take you home  
I just wanna take you home

I'm still stuck on them picket fences

Blue skies and kids with questions  
Are lives went in different directions  
Black rock suppressing inventions  
Right after the lip injections  
Tyga came in the picture and I was the cynical best-friend  
Pinnacle less then feeling inhale a breath in dealing with real resen  
tment  
It's self directed I ain't get the lesson  
I had the pen but didn't answer messages  
I could've sent a text or got us some flower necklaces  
All your buttons I pressed em  
All our boundaries tested  
I act nice but I'm bad as the rest of them accept  
That one night we fell in love at the festival  
And I left feeling hopeless we wasn't the closest  
When I wrote this but you still deserve roses

Roses

Left them at your door cause I was hoping  
They would lead you home tonight cause I
