

U

Jaden Smith

I was tryin' to love you, but we
(We falling down, we falling down, we falling down)
Said shawty I was fuckin' tryna' love you, but we
(We falling down, we falling down, we falling down)
I was tryin' to love you, but we
(We falling down, we falling down, we falling down)
I was tryin' to love you, but we
(We falling down, we falling down, we falling down)
I was tryin' to love you, but we
(We falling down, we falling down, we falling down)
Said shawty I was fuckin' tryna' love you, but we
(We falling down, we falling down, we falling down)
I was tryin' to love you
(We falling down, we falling down, we falling down)
Do you love me now?
(We falling down, we falling down, we falling down)

Heart is broken, heart is broken
Gettin' green, gettin' green
Man I'm artichokin', man I'm artichokin'
I can't breathe that's the art of chokin'
Tha-that's the art of chokin'
Send a text and never opened it
You thought I read this shit, well I was strokin'
Falling down like I'm in Autumn
All you jokers spitting nada nada nada
6 Minutes and I still gotta mama mothafuckin' problem
Calm down, calm down

Now we're still here
Thank you

Try me, come try me
I wish you could see what I see
I'm late, you find me so timely
I'm lost, baby, come and find me

Girl, I'm fallin' to the ground and you'll never get me up
I'm just a baby with a stack of needles and a sippy cup
And this shit sucks, need some love, my Aphrodite I can touch
Elvis Presley's coming out of me, my head has got a rush
Didn't pick a fight, the FBI just picked a fight with me
When I cry at night, like every night, just come right here and see
Screw your VIP

We are like Adam and Eve
We are like Adam and Eve
We are like Adam and Eve
Oh no what happened to me, no

Jimmy Hendrix with the flex
On the Ford motor, rollin', gettin' checks
At your crib for the chill
Crew is at the door, all for the cheque, cheque, cheque
Man, you better show respect
Man I let her go, we both know I hadda
Man, I'm madder than a hatter, played my money

You know I'm swagger than Mick Jagger

Jimmy Hendrix with the shifts
Jimmy Hendrix with the shifts, I told 'em
Jimmy Hendrix with the shifts
Jimmy Hendrix with the check, check, check, check
Jimmy Hendrix with the shifts (chaos, chaos)
Jimmy Hendrix with the shifts
Jimmy Hendrix with the check, check, check
Jimmy Hendrix with the shifts
Jimmy Hendrix with the shifts (chaos)
Jimmy Hendrix with the shifts
Jimmy Hendrix with the check, check, check
Jimmy Hendrix with the shifts
Jimmy Hendrix with the shifts (chaos, chaos, chaos)

You're no good for me girl
You're cruel and infectious
You are my wish, this is me with a death wish
I'm smart, I should get this, but
Your eyes, your hips, your lips
To me that's so precious, I guard them like treasures
I'd run, I'd drive, I'd fly just to met you
Just to witness your gestures
Never, forever, the moments still hold us together
Never, forever, the moments still hold us together
Never, forever, the moments still hold us together
Never, forever, the moments still hold us together
Never, forever, the moments still hold us together
Never, forever, the moments still hold us together
I'll die by sea, girl, I'll die by the sea
Will you die with me, girl, will you die me
The future I see, girl, will you try to see
