

## Derealisation

Jadu Heart

Sunday hiding, feel I'm dying  
Where the grass don't grow  
Call my brother, don't tell mother  
Separated I'm gone

'Cause I don't need no sympathy  
The devil's on my side  
So meet me by the warm desire  
Calms you through your bones  
Don't let go now  
Don't let go now  
Don't let go now, you're not alone

Adolescent, panic ridden  
Hiding in my room  
Separated, mind racing  
Slowly learned to bloom

'Cause I don't need no sympathy  
The devils on my side  
The time spent vacant  
Something sacred  
Brought me back to life  
Don't let go now  
Don't let go now  
Don't let go now, you're not alone
