

Harry Brompton's Ice Tea

Jadu Heart

I see when you're down babe (when you're down)
I got this place where
I go to turn it around babe (yeah, I turn it around)
Can you feel it?

I'm drifting now
Down through the river that's made
Can you feel it? (I can feel it)
Yeah I'm floating down
I feel every ripple and wave
Can you feel it? (I can feel it)

You see when I'm down babe (when I'm down)
You got this place where
We go to turn it around babe (turn it around)
Can you feel it?

I'm drifting now
Down through the river that's made
Can you feel it? (I can feel it)
Yeah, I'm floating down
I feel every ripple and wave
Can you feel it? (I can feel it)

I'm drifting now
Down through the river that's made for us we've paved
Yeah, I'm floating down
I feel every ripple and wave through us to our cave

In this place
Getting lost all day
Feel your rage
Slowly drift away
Can you feel it? (I can feel it)

In this place
Getting lost all day
Feel your rage
Slowly drift away
Can you feel it? (Oh, I feel it) Yeah, I'm drifting now
Down through the river that's made for us we've paved

Yeah I'm floating down
I feel every ripple and wave through us to our cave
