Jadu Heart

I was waiting
In the darkness
Hallowing, hallowing
And I was praying
For some light
Inside of it, let me in

Fallen like a racehorse
Tryna keep the chase on
Never seeing who's wrong
There's something in your eyes that makes me hypnotized
Darling, I will stay now
If you wanna calm down
Listen to my voice now
Listen for the sign
We'll play it out in time
We'll play it out in time

I was praying
To the sky's for anything, anything
You were fading like a flower, withering
Why won't you let me in?

Fallen like a racehorse
Tryna keep the chase on
Never seeing who's wrong
There's something in your eyes that makes me hypnotized
Darling, I will stay now
If you wanna calm down
Listen to my voice now
Listen for the sign
We'll play it out in time
We'll play it out in time

Salt beneath the wound I cry
To wash away the pain for you
Try to take away the beast
I heard him all the time, I do
And I do, it again
And I do it again
