

Can't nobody tell me I should calm down
They can see the chain is glistening my name
Cause I seem to have it on all the time now
I got it on right now, ooh
If I gotta leave, take a leap
Then I'm cashin' out
Like my money green, like the leaves
Now they're fallin' down
Can't nobody bite my style
Like I'm the last of my goddamn kind
You can sit with me if you wanna
Feel if you wanna know what it's like
Chill under these trees if you wanna
Feel if you want a piece of this life

These days I'm made of gold
Uh oh, oh, gold, uh oh oh
This is my dream, I'm the lead
You can follow me
Got it in my genes, on my teeth
It can only be gold, uh oh, oh
Gold, uh oh oh

You see my melanin worth more than my chain
Got gems all in my brain
Call my jeweler, bust down my ring
I'm married to the game
Doin' this shit since 98'
It's perfect timing, easy bake
Wine me, dine me, feed me grapes
Kickin' back, takin' names
They always underestimate the wrong girl
Funny cause me and
Jae we takin' off like gone girl
The bomb, world gone feel it when we shake it up
Give me my flowers, show me love
I'm a diamond in the rough
I'm drippin' gold now you can't touch, cause
This is my dream, I'm a queen, you can follow me
It's in my genes, how I gleam
I could only be that one thing everybody's wanting
Ain't no gold plate
I'm made of the whole damn thing

These days I'm made of gold
Uh oh, oh, gold, uh oh oh
This is my dream, I'm the lead
You can follow me
Got it in my genes, on my teeth
It can only be gold, uh oh, oh
Gold, uh oh oh
