

# Got It Like That

Jae Stephens

Met him at a party, was a long night  
He did that little thing I like, yeah  
You can ask me once or twice, but never ever 15 times  
So I had to tell him, "bye-bye, nice try, good night"

They go loco, loco, loco, loco  
Thinkin' this is a race  
But they don't know, don't know, don't know, don't know  
How to keep a good pace  
We could've had a really good time  
But we ain't no Bonnie and Clyde, so  
I'll see you on the flip side  
I'm tired, good night

I'm gonna tell you a secret  
Know if you really wanna keep me  
I gotta know that you mean it  
Don't try to push me in the deep end  
'Cause I know your type, yeah, I know you  
I know what you like, let me show you  
Now you got it so bad, good to know you  
You think you got it like that, but you don't, yeah

These guys  
They always got a one-track mind  
I'm a once-in-a-lifetime, but they want it all in one night  
So, I leave 'em at a red light, peace sign, goodbye

They go so low, so low, so low, so low  
Tryna test their luck  
But they don't know, don't know, don't know, don't know  
I'm no quick fuck  
You could've been a really nice guy  
If you didn't cross nine lines  
You put up a pretty good fight  
Surprise me next time

I'm gonna tell you a secret  
Know if you really wanna keep me  
I gotta know that you mean it  
Don't try to push me in the deep end  
'Cause I know your type, yeah, I know you  
I know what you like, let me show you  
Now you got it so bad, good to know you  
You think you got it like that, but you don't

Get on my wave, boy, get on my wave  
Hands off my waist, boy, get out my way  
I won't debate, nah, I'm not afraid  
Crack a bottle on you, I don't give a fuck 'bout what you say  
Get on my wave, boy, get on my wave  
Make no mistake, we are not the same  
You tried your game, but only got played  
Saw it coming from about a mile away

I'm gonna tell you a secret  
Know if you really wanna keep me

I gotta know that you mean it  
Don't try to push me in the deep end  
'Cause I know your type, yeah, I know you  
I know what you like, let me show you  
Now you got it so bad, good to know you  
You think you got it like that, but you don't, yeah
