

# Headlights

Jae Stephens

What a time to be alive  
Both hands off the wheel  
The designated driver, I think she's suicidal  
The curbside just lost its appeal

So where to? (Where to? Where to? Where to?)  
Go back in the 'Bach, Jesus on the dash  
Sunlight in the dust, iron into rust  
Daydreamin' of us, diamonds in the rough

Keep it, keep it on me  
Keepin' all eyes on me (Headlights)  
Keep it, keep it on me  
Keep those lights on me (Headlights)  
Do you, do you believe  
Believe in you and me? (Headlights)  
Keep it, keep it on me  
Keep your lights on me

So, boy, come my way  
Try your hand and place a bet on me  
If you're on my team  
Shine your lights, boy, turn on your high-beams  
So, boy, come my way  
Try your hand and place a bet on me  
If you're on my team  
Shine your lights, boy, turn on your high-beams

You- are you the one blocking my blessing?  
Are you here to teach a lesson? Are you just another distraction?  
You- I haven't figured out your purpose yet  
It's like a drug that I don't get, a habit that I'll never kick  
Ooh, every time we get a leg up in this race  
They fill my head up with they games and now I'm fed up  
But you don't slow me down  
You don't slow me down

So where to? (Where to? Where to? Where to?)  
Go back in the 'Bach, Jesus on the dash  
Sunlight in the dust, iron into rust  
Daydreamin' of us, diamonds in the rough

Keep it, keep it on me  
Keepin' all eyes on me (Headlights)  
Keep it, keep it on me  
Keep those lights on me (Headlights)  
Do you, do you believe  
Believe in you and me? (Headlights)  
Keep it, keep it on me  
Keep your lights on me

So, boy, come my way  
Try your hand and place a bet on me  
If you're on my team  
Shine your lights, boy, turn on your high-beams  
So, boy, come my way  
Try your hand and place a bet on me

If you're on my team  
Shine your lights, boy, turn on your high-beams

I know, I know that it's been a pretty long night  
I know, I know that I'll follow wherever you like  
I know, I know, ah, you can see it now  
Nothing but miles of road ahead in our headlights

Keep it, keep it on me  
Keepin' all eyes on me (Headlights)  
Keep it, keep it on me  
Keep those lights on me (Headlights)  
Do you, do you believe  
Believe in you and me? (Headlights)  
Keep it, keep it on me  
Keep your lights on me

So, boy, come my way  
Try your hand and place a bet on me  
If you're on my team  
Shine your lights, boy, turn on your high-beams  
So, boy, come my way  
Try your hand and place a bet on me  
If you're on my team  
Shine your lights, boy, turn on your high-beams
