

Kiss It

Jae Stephens

My boy likes to leave so he can run back to me
Doing business out in Nice, always got somewhere to be
Late at night, waiting up when I hear them keys, yeah
All day, he been dreaming of being with me, me

'Cause he told me last night on the phone that he was lonely
Something 'bout the distance makes me horny
So I can't wait to see him, he's getting here 10 p.m.
He better carpe diem, oh

Seven days that you been gone, from the second you get home
Come and fix it, kiss it like you miss it
La-la-lipstick on the telephone, don't you wanna see it closer?
Get explicit, kiss it like you miss it
Kiss it, kiss it, kiss it like you miss it, baby
Kiss it, kiss it, kiss it like you miss it
Kiss it, kiss it, kiss it like you miss it, baby
Kiss it, kiss it, kiss it like you miss it

How bad did you miss me? I wanna know
Put on a show, now we're alone
Boy, let's make it up for the time away
We're face to face, you won't leave the same

'Cause he told me last night on the phone that he was lonely
He's been working so hard to afford me
So I can't wait to see him, he's getting here 10 p.m.
He better carpe diem, oh

Seven days that you been gone, from the second you get home
Come and fix it, kiss it like you miss it
La-la-lipstick on the telephone, don't you wanna see it closer?
Get explicit, kiss it like you miss it
Kiss it, kiss it, kiss it like you miss it, baby
Kiss it, kiss it, kiss it like you miss it
Kiss it, kiss it, kiss it like you miss it, baby
Kiss it, kiss it, kiss it like you miss it

Listen, tomorrow I might just get on a flight
Couple thousand miles, then you'll understand
You have no idea the way that it feels
To wish you were here
Baby
You miss me?

Kiss it, kiss it, kiss it like you miss it, baby
Kiss it, kiss it, kiss it like you miss it
Kiss it, kiss it, kiss it like you miss it, baby
Kiss it, kiss it, kiss it like you miss it
