

Completely

Jaehyun

Baby, tell me your favorite love song
I wanna sing it with you
Baby, show me the streets
Where you come from
I wanna walk 'em with you

Take it right from the start
Tell me who you are
Every piece of your heart
Every bruise and scar

I wanna know
Everything there is to know
Don't you dare leave nothin' out, no
I'm gonna love you completely
Oh, show me a map of your soul
Every second from now
I'm gonna love you completely

Call me crazy
Wanna read you like a book
Sipping on a glass of wine
I wanna get under the surface
And get to the bottom of you
And lately I just wanna lie
Awake looking in your eyes
Don't care how heavy the hurt is
I wanna carry it too

Take it right from the start
Tell me who you are
Every wish on a star
Every bruise and scar

I wanna know
Everything there is to know
Don't you dare leave nothin' out, no
I'm gonna love you completely
Oh, show me a map of your soul
Every second from now
I'm gonna love you completely

Through good times, bad times, red lights, stop signs
The one thing you should know
Is my love will always ring true, ooh

I wanna know
Everything there is to know
Don't you dare leave nothin' out, no
I'm gonna love you completely
Oh, show me a map of your soul
Every second from now
I'm gonna love you completely
