

# Addicted To Love

Jagged Edge

Mic check one to ready  
Um I'm get you sweaty  
And J.E. they gon bring you some

I've tried to let you go so many times (yes I have)  
And I never thought that going back would ever cross  
my mind  
See I find, it's only you, back to give me that  
special treatment  
I aint never been one to beg, baby I miss you and baby  
I need you

You know I like the way you make me feel inside  
Baby I just can't shake ya  
I'm addicted to your love baby  
All day all night you make me feel so right  
Baby I just can't shake ya  
I'm addicted to your love baby

The thought of you it makes me go crazy and I know  
If you trust me you can be my one and only lady  
And you make me feel like I wanna feel  
Taking your time, let me know what's real  
You know that it feels so right  
So give me what you got tonight

Lady when I close my eyes  
All I see is you and all the beautiful things we used to do  
Lady when I close my eyes  
It's only you I think of, cause I'm addicted to your love
